自分自身の性格を、どう思いますか? I am a pretty easy going guy. I think I have one of those personalities that make it easy to get along with just about everyone. I believe in respecting others and their wishes (to a certain extent of course), and accepting each person for who they truly are. I myself am consider to very unique and standalone. I think outside the box, and often take the road less traveled. Also as my friends could attest to, I happen to be a very random individual.

将来、貴方のパートナーとなる人に、交際が進展する前に、是非知っておいて貰いたい事がありますか?  はい  いいえ

I love science fiction and science in general, whether it be watching it, talking about, or doing it. Also I like to cook and even more too eat. Its fun to go out sometime to either a fancy restaurant, or maybe just a hole in the wall with really good food, and a great atmosphere. I like to travel, whether it's just across the state, or across the world. Also I am a very active person and enjoy being around other active people. I don't watch sports much, but I do like to play, so women who have played sports in school or who like to play would probably be a better match but it is not a requirement. Muscular legs are a turn on.

貴方の将来の希望や計画はどんなものですか? I hope to attain a PhD.

貴方の将来のパートナーへのメッセージ。 The best way to get to know me is just ask so feel free to ask me anything about myself.

One last thing I would like to write about me is that I am probably not like any other guy, or person in general, that you have ever met.
